## TERMS OF SALE.

THIS LIST CANCELS  
ALL PREVIOUS OFFERS.

### ORDERS FROM UNKNOWN CORRESPONDENTS

Must be accompanied by remittance or satisfactory reference.

### TO PARTIES KNOWN TO US

Accounts are payable Dec. 1st, 1894, for all bills bought previous to that date. For subsequent purchases prompt settlement will be expected on June 1st, 1895.

### A CASH DISCOUNT OF 5 PER CENT (except where noted)

Allowed on orders from this catalogue accompanied by remittance, as also on all bills paid within ten days after receipt of goods. It is, however, distinctly understood that Tools and Implements of all kinds, and Fertilizers are not subject to any discount and are sold strictly *net cash*.

### WE MAKE NO CHARGE FOR CARTAGE

Boxes, barrels, or packing. Bags only are charged for, and these at cost.

### WHILE WE EXERCISE THE GREATEST CARE

To have all seeds, plants and bulbs pure and reliable, we do not give any warranty express or implied. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for the same will be refunded.—P. H. & Co.

### CONDITIONS OF SALE OF PLANTS.

All plants sent by express, unless specially ordered otherwise. We guarantee safe arrival of all plants sent by express. If wanted by mail, we will send them at an advance of one fourth over the prices quoted. We make no charge for boxes, baskets or packing. The plants are offered in this list at the rates quoted per 100, *provided*, (except where they are offered singly), *that not less than FIVE of each class or variety are taken*, nor in less amounts than *three dollars for the total value of the order*. The varieties must be our own selection of sorts, unless otherwise offered. Any one wanting varieties of special kinds, can order from our Retail Descriptive Catalogue, (The Manual of Everything for the Garden,) but at retail rates, from which we allow a discount of one-third. **We allow a discount of one-third from our retail catalogue on plants not offered in this list.**

### PLANT DEPARTMENT.

Our greenhouses and frames cover nearly four and one half acres solid in glass, unquestionably the most extensive on this continent. These structures are so arranged that they can be graded to any temperature, so the most perfect health and vigor are given to the plants, and with such unequalled facilities for their production, it will be quickly seen that we can compete with any in the matter of prices, quality of stock considered.

### CORRESPONDENCE, ADVICE, ETC.

We are always glad to give any information in our power to our customers on any subject pertaining to our business, but to avoid error, this should always be written on separate paper to that used for orders.

## Lower Express Rates ON PLANTS.

Under the new ruling of the leading Express Companies, **advocated** and secured by us, plants packed in closed boxes or baskets will now be carried at the "General Special" rate. This rate means a reduction of 20% from the regular merchandise rates to all points where no "General Special" exists. Shipments weighing less than 100 lbs. receive the benefit of the rate per 100 lbs., but the minimum charge is 35c. For instance; where the regular merchandise rate is \$4.00 per 100 lbs., a box of plants weighing 25 lbs. would be carried for 80c.—a saving of 20c. on one shipment.

No picture can portray the beauty of this grand climbing plant. As an important aid to architectural beauty it is rapidly attaining prominence, being now a feature on the finest houses - notably the palatial residence corner 57th Street and 5th Avenue, New York City. Another fine example of it is seen on Grace Church, in New York, while on Commonwealth Avenue, in Boston, there are hundreds of the finest houses covered with it from foundation to roof. It is adapted to all situations, and transforms the humblest cottage. It is entirely hardy in the most exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones, brick or wood work with the greatest tenacity. It is a great protection to houses, as the leaves lapping over each other like slates on a roof effectually prevent rain from penetrating the walls. For covering dead trees, gate posts, boundary walls, verandas, etc., it has no equal, while its rapid growth and tenacious clinging qualities make it a most desirable plant for staying up terraces. In the summer the foliage is a rich shade of green, but in fall it assumes the most gorgeous tints of *scarlet, crimson* and *orange*, so dazzling as to be seen at a great distance. We sold over 50,000 plants of this the past season, a large proportion of which were used on churches and public buildings, Price, \$10.00 per 100.

**SWORD FERN.**

(Nephrolepis Exaltata.)

In well-grown specimens the fronds attain a length of six or seven feet but only one to three inches wide, and like plumes arching over in every direction, in a most graceful manner. Our cut conveys but a very poor idea of its gracefulness and beauty. Price, \$8.00 per 100.
